

General

This module has been designed to interface the micro camera muC10x series, which has analog video signal interface. It provides TV interface to connect TV set.

Key Features

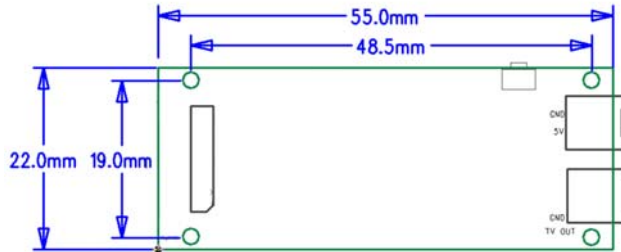

- ✓ Small size 22x55mm
- ✓ Interface to muC30x series
- ✓ Auto White Balance
- ✓ Real time Video output
- ✓ Plug and play
- ✓ Support NTSC or PAL Display
- ✓ Image display in center of monitor
- ✓ Latency <0.1sec
- ✓ 5VDC operate

Module Specifications

Board Size	25 x 70mm
Display Connector	2pin, 2mm pitch
Video Out	NTSC / PAL (factory setting)
Power Connector	2pin, 2mm pitch
Sensor Connector	6pin, 2mm pitch
Operation Voltage	3.7 ~ 5VDC
Operation Current	150mA typ.
